# Schedule Constraints

- Current end of WG charter is Jan 31
- 6mo extension gives July 31
- Milestone tool gives the following:
  - REC: July 26
  - PR: June 21
  - CR: May 5
  - FPWD: Jan 13 (may be relevant if we want to publish a TD 2.0 spec)
- Prudence backs off PR/CR by 2mo to allow for "review slip":
  - PR: mid-April
  - CR: mid-March
  - Implementations, testfest: mid-Feb; spec feature freeze/early review: Dec 31

# Revised Plan for Normative Deliverables

- Thing Description
  - 1.1
    - May need to rollback some things for KISS, compatibility (e.g. optional forms)
    - Decide on rollback features by end of Nov
    - Aim for feature freeze Dec 15, to give time for Profiles to catch up by Jan 31
  - 2.0
    - FPWD deadline is Jan 13
    - Probably not feasible, will have to defer to next charter
- Architecture
- Discovery
- Profiles
